Hedge accounting
Deferral hedge accounting is adopted for derivatives which qualify as hedges, under which unrealized gain or loss is deferred.
Hedging instruments and hedged item
Hedging instruments - Derivative transactions
Hedged items - Mainly forecasted sales denominated in foreign currencies
Hedging policy
It is the Company's policy that all transactions denominated in foreign currencies are to be hedged
Assessment of hedge effectivenes:
The assessment of hedge effectiveness is omitted when the terms of forecasted sales at substantially same as those of forward exchange contracts

Risk management policy with respect to hedge accounting
The Company manages its derivative transactions in accordance with its internal "Policies and Procedures for Risk Management.'
6) Consumption Tax

Transactions subject to consumption tax are recorded at amounts exclusive of consumption tax
7) Accounting policies adopted by foreign consolidated subsidiaries

The semiannual financial statements of the Company's subsidiaries in Mexico and other certain countries have been prepared based on general price-level accounting. The related revaluation adjustments made to reflect the effect of inflation in Mexico and other certain countries are charged or credited to operations and directly reflected in retained earnings in the accompanying semiannual consolidated financial statement:

## 4.Cash and cash equivalents

Cash and cash equivalents in semiannual consolidated statements of cash flows include cash, deposits which can be withdrawn on demand and highly liquid short-term investments exposed to insignificant risk of changes in value with a maturity of three months or less when purchased

## 5.Accounting changes

## (Forward exchange contracts)

Until the year ended March 31, 2005, the Company and its domestic consolidated subsidiaries adopted the special treatment for forward exchange contracts which were entered into to hedge forecasted sale: denominated in foreign currencies and were also qualified for hedge accounting in the manner that relate sales and accounts receivable were translated and reflected in the consolidated financial statements at their corresponding contracted rates. Effective April 1, 2005, the Company and its domestic subsidiaries changed their accounting for those sales, accounts receivable and forward exchange contracts to the benchmark method under which sales denominated in foreign currencies are translated into Japanese yer at the exchange rates in effect at each transaction date and related accounts receivable are translate at exchange rates in effect at the balance sheet dates charging or crediting the exchange difference: into income, while the forward exchange contracts are carried at the market fair value. This chang was made, as a result of the implementation of newly modified internal operating system regardin forward exchange contracts, to achieve a better presentation of gain or loss related to derivativ transactions.
The effect of this change was immaterial

## (Accounting Standard for Impairment of Fixed Assets)

Effective April 1, 2005, the Company and its domestic consolidated subsidiaries have adopted thr accounting standard for impairment of fixed assets ("Opinion Concerning the Establishment of Accounting Standard for Impairment of Fixed Assets" issued by the Business Accounting Deliberation Council on August 9, 2002) and the "Implementation Guideline on the Accounting Standard for Impairment of Fixed Assets" (Business Accounting Standard Implementation Guideline No. 1 issued on October 31, 2003). The effect of this change was to decrease income before income taxes anc minority interests by 23,058 million yen for the six month period ended September 30, 2005
Cumulative impairment losses have been directly subtracted from respective assets in accordance wit revised Regulations for Semiannual Consolidated Financial Statements

## 3) Basis of Semi-Annual Non-Consolidated Financial Statements

## 1.Valuation methods for assets

(1) Valuation of inventories

Inventories are carried at the lower of cost or market, cost being determined by the first-in, first-out method.
(2) Valuation of securities

1) Held-to-maturity debt securities are stated at amortized cost based on the straight-line method.
2) Investments in stock of subsidiaries and affiliates are stated at cost determined by the moving average method.
3)Other securities

Marketable securities ..... Marketable securities classified as other securities are carried at fair value with changes in unrealized holding gain or loss, net of the applicable income taxes, directly included in shareholders' equity. Cost of securities sold is calculated by the moving average method.
Non-marketable securities ..... Non-marketable securities classified as other securities are carried at cost determined by the moving average method.
(3) Accounting for derivative financial instruments

Derivative financial instruments are stated at fair value.

## 2.Depreciation and amortization of fixed assets

(1) Depreciation of property, plant and equipment is calculated by straight-line method based on their estimated useful lives and economic residual value determined by the Company.
(2) Amortization of intangible assets is calculated by the straight-line method.

## 3.Basis for reserves and allowances

(1) Allowance for doubtful accounts

The allowance for doubtful accounts is provided for possible bad debt at the amount estimated based on the historical experience of bad debts for normal receivables plus an estimate of uncollectible amounts determined by reference to the collectibility of individual doubtful receivables.
(2) Accrued warranty costs

Accrued warranty costs are provided to cover the cost of all services anticipated to be incurred during the entire warranty period in accordance with the warranty contracts and based on past experience.
(3) Accrued retirement benefits

Accrued retirement benefits are provided for the payment of retirement benefits at an amount calculated based on the retirement benefit obligation and the fair value of the pension plan assets at fiscal year end. The net retirement benefit obligation at transition is being amortized over a period of 15 years by the straight line method.
Prior service cost is being amortized as incurred by the straight-line method over periods which are shorter than the average remaining years of service of the eligible employees.
Actuarial gain or loss is amortized in the year following the year in which the gain or loss is recognized by the straight-line method over periods which are shorter than the average remaining years of service of the eligible employees.

## 4.Lease transactions

Noncancellable lease transactions that transfer substantially all risks and rewards associated with the ownership of assets are accounted for as finance leases.

## 5.Hedge accounting method

Hedge accounting
Deferral hedge accounting is adopted for derivatives which qualify as hedges, under which
unrealized gain or loss is deferred.
Hedging instruments and hedged items
Hedging instruments - Derivative transactions
Hedged items - Mainly forecasted sales denominated in foreign currencies.
Hedging policy
It is the Company's policy that all transactions denominated in foreign currencies are to be hedged.

## Assessment of hedge effectiveness

The assessment of hedge effectiveness is omitted when the terms of forecasted sales are substantially same as those of forward exchage contracts.
Risk management policy with respect to hedge accounting
The Company manages its derivative transactions in accordance with its internal "Policies and Procedures for Risk Management."

## 6.Consumption Tax

Transactions subject to consumption tax are recorded at amounts exclusive of consumption tax.

## 7.Change of accounting method

(Forward exchange contracts)
Until the year ended March 31, 2005, the Company adopted the special treatment for forward exchange contracts which were entered into to hedge forecasted sales denominated in foreign currencies and were also qualified for hedge accounting in the manner that related sales and accounts receivable were translated and reflected in the non-consolidated financial statements at their corresponding contracted rates. Effective April 1, 2005, the Company changed its accounting for those sales, accounts receivable and forward exchange contracts to the benchmark method under which sales denominated in foreign currencies are translated into Japanese yen at the exchange rates in effect at each transaction date and related accounts receivable are translated at exchange rates in effect at the balance sheet dates charging or crediting the exchange differences into income, while the forward exchange contracts are carried at the market fair value.
This change was made, as a result of the implementation of newly modified internal operating system regarding forward exchange contracts, to achieve a better presentation of gain or loss related to derivative transactions.
The effect of this change was to increase net sales and operating income by 16,478 million yen and to increase ordinary income and income before income taxes by 930 million yen for the six months ended September 30, 2005 compared with the corresponding amounts which would have been recorded under the previous method.
(Accounting Standard for Impairment of Fixed Assets)
Effective April 1, 2005, the Company has adopted the accounting standard for impairment of fixed assets ("Opinion Concerning the Establishment of Accounting Standard for Impairment of Fixed Assets" issued by the Business Accounting Deliberation Council on August 9, 2002) and the "Implementation Guideline on the Accounting Standard for Impairment of Fixed Assets" (Business Accounting Standard Implementation Guideline No. 6 issued on October 31, 2003). The effect of this change was to decrease income before income taxes by 10,047 million yen for the six month period ended September 30, 2005.
Cumulative impairment losses have been directly subtracted from respective assets in accordance with revised Regulations for Semi-annual Non-Consolidated Financial Statements.
