

# Editorial policy

Nissan publishes a sustainability data book to share information on our sustainability strategies and management to help stakeholders gain a better understanding of the social responsibilities we must fulfill and the social value we aim to provide. It also gives an overview of Nissan Green Program 2030 (NGP2030) — our fifth medium-term environmental action plan for 2030, and Nissan Social Program 2030 (NSP2030) — the first program designed to comprehensively promote social initiatives — and share the achievements of our fiscal 2023 activities. For further long-term visions and strategies, please refer to our integrated report.

## Positioning of reports

## Scope

Period covered: The report covers fiscal 2023 (April 2023 to March 2024); content that describes efforts outside this period is indicated in the respective sections.  
Organization: Nissan Motor Co., Ltd., subsidiaries and affiliated companies in the Nissan Group.

## Referenced reporting guidelines

Nissan has prepared this report in accordance with the GRI Standards for the period April 1, 2023 through March 31, 2024.

Publication of GRI content index

Please visit the following website for the GRI content index.  
<https://www.nissan-global.com/EN/SUSTAINABILITY/LIBRARY/SR/2024/GRI/>

- Task Force on Climate-related Financial Disclosures (TCFD) recommendations
- Sustainability Accounting Standards Board (SASB) standards

## Date of previous report

ESG data book 2023, issued July 31, 2023.

## Reporting cycle

Annually since 2004

## Third-Party assurance

## Forward-looking statements

This sustainability data book contains forward-looking statements on Nissan's future plans and targets and related operating investment, product planning and production targets. There can be no assurance that these targets and plans will be achieved.

Achieving them will depend on many factors, including not only Nissan's activities and development but also the dynamics of the automobile industry worldwide, the global economy and changes in the global environment.
