

NISSAN TECHINICAL REVIEW 2024 No.90

Contents

Published in August, 2024

◆ Preface

Nissan's advanced technology development for constantly staying one step ahead	1
Takao Asami	

◆ Special Feature 1 : Electrification

1. Nissan's electrification revolution:History of 75 years from "TAMA" to "ARIYA" and a vision for the future	5
Atsushi Teraji	
2. High package efficiency in platform dedicated to next-generation EVs	19
Masahiro Oonishi Kitaru Sone	
3. Evolution of batteries for electric vehicles:Nissan's future vision	25
Atsushi Ohma Shinichi Tasaki Kentaro Hatta Yuichiro Tabuchi Masahiro Morooka Norihiko Hirata	
4. Evolution of the electric all-wheel drive e-4ORCE	31
Ryozo Hiraku	
5. System technology that provides EV-ness to e-POWER	37
Tomoyuki Hanyu Tomohiro Ito Takanobu Sawada Hidekatsu Akiyama Azusa Ito	
6. Challenging to reach 50% thermal efficiency for engine dedicated to e-POWER for sustainable mobility	45
Tadashi Tsurushima	

◆ Special Feature 2 : Advanced Driver Assistance Systems (ADAS) & autonomous driving

1. Advanced Driver Assistance Systems (ADAS) & autonomous driving	57
Takashi Kimura	
2. ProPILOT Assist.....	65
Takuya Inoue Yohei Taniguchi Seiji Tokunaga	
3. ProPILOT parking	73
Teruhisa Takano Takeshi Watanabe Muku Takeda	
4. The latest driver assistance technology aimed at achieving zero accidents	77
Nariaki Etori	

◆ Special Feature 3 : Connected service

1. Overview of Connected Cars and Services	83
Toshiro Muramatsu	
2. HMI evolved by connectivity	87
Tetsu Obata Kaori Takeuchi Dai Katagiri Miyo Yasuhito Yasutomo Sasanuma Masaru Tasaki	
3. Software update.....	91
Mitsuhiko Kikuchi Eisuke Ohashi Masaaki Uzumi Akihiko Kouzai	
4. The Present and Future of IoT Collaboration Services Provided by Connected Cars.	97
Naoya Oka Toshimitsu Ishii	
5. Mobility service	101
Susumu Fujita Takeshi Kimura Naoki Miyashita	

◆ Introduction of Technical Award Winners

2023 JSAE Award The Outstanding Technical Paper Award	
Thick Diamond-like Carbon-coated Piston Ring Developed for Stainless Steel Thermal Spray Coating in Cylinder Bores	111
Hayato Hirayama Yoshito Utsumi Daisuke Shibata Takashi Noma
